

REMARKS

Prior to an examination on the merits of the above-identified patent application, please enter the foregoing amendments.

Claims 45-73 are now pending in the above-identified patent application, as presented by the instant Preliminary Amendment. All prior (original) claims have been cancelled. Claims 45, 59 and 60 are presented in independent form.

The present application represents the U.S. National Phase of P.C.T. Application No. PCT/GB03/01162, filed March 17, 2003, and claiming foreign priority on the basis of a corresponding United Kingdom patent application, filed March 18, 2002.

The Basic U.S. National Fee (large entity) was timely paid on Monday, September 20, 2004. With the instant Preliminary Amendment, Applicant now remits the additional claims fee of \$162.00 to cover the pendency of eight claims beyond the twenty total claims covered by the Basic Fee.

By the present amendment, prior Claims 1-44 have been cancelled and substituted by new Claims 45-73, which have been drafted in conformance with U.S. claim practice. U.S. sectional headings have also been entered for the Specification.

A substitute Abstract of the Disclosure, on a separate sheet of paper, as required by 37 C.F.R. §1.72(b), is also enclosed.

The application is now in condition for a full examination on the merits.

Accordingly, an early examination on the merits and allowance are, therefore, respectfully requested and earnestly solicited.

Respectfully submitted,

JONATHAN WILKINSON
